SUMMARY

Computer Science graduate and junior software developer with hands-on experience building and deploying web, mobile, AI, and augmented reality applications. Experienced in C#, Python, PHP, Node.js, Flutter, REST APIs, and database-driven systems, with experience leading development of software projects for academic and government environments.

TECHNICAL SKILLS

Languages: C#, Python, Java, JavaScript, PHP, Dart

Framework/Platforms: Flutter, Unity, Node.js, FastAPI

Databases: MySQL

Development: REST APIs, OOP, Data Modeling, AI/ML Integration

Tools: Git, VS Code, Figma, Canva

PROJECTS

ARIA — Augmented Reality Informative Assistant | Main Developer

- Led development of a mobile AR information and navigation assistant using Unity and C#.
- Developed a Python-based chatbot system for answering questions about school policies and transactions.
- Integrated the chatbot with the mobile application through an API.
- Implemented AR-based campus navigation to help students locate facilities.
- Published the completed application on Google Play Store.

Software Engineer Intern / OJT — Department of Human Settlements and Urban Development (DHSUD)

- Develop the backend of an Automated Mail Tracking System using PHP and Node.js.
- Integrated API requests to automatically retrieve and update the delivery status of office mail.
- Developed and deployed the system on the organization's local network, enabling multiple departments to monitor outgoing mail.
- Designed the system to centralize mail tracking and reduce manual status checking.

CERTIFICATIONS

Java Fundamentals — Oracle Academy

AI Basics: Overview of Artificial Intelligence — CRA Training Program

STI COUNCIL OF INFORMATION TECHNOLOGY UNIFIED STUDENTS' ORGANIZATION

Public Relation Officer

Auditor

ACHIEVEMENTS

Code Fest Placer — Recognized for coding performance

Symposium Best in Implementation — Commended for capstone system implementation

EDUCATION

Bachelor of Science in Computer Science

STI College Calamba — 2026
